**Cell Bridge Strategies Sponsors
“Regenerative Medicine and Cell Therapy – The India Landscape”
Session at Virtual World Stem Cell Summit and the Wake Forest
Regenerative Medicine Essentials Course, June 6-11**

Boerne, TX. June 1, 2022 — [Cell Bridge Strategies](http://CellBridgeStrategies.com), an industry thought leader and consulting firm for Regenerative Medicine and the Advanced Therapies announced its sponsorship and design of an executive-level panel session to address the significant impact India is having in Regenerative Medicine and Advanced Therapies at this year’s Regenerative Medicine Foundations (RMF) Virtual World Stem Cell Summit (WSCS), June 6-11.

The session entitled, *Regenerative Medicine and Cell Therapy – The India Landscape*, is part of the WSCS’s regional and international showcases that provide attendees with key insights from industry leaders across geographic and institutional segments. Dr. Preveen Ramamoorthy Ph.D., Advisory Board Member & Principal Consultant for Cell Bridge Strategies, is a leader in precision medicine & global health, has organized and will chair the session. Dr. Ramamoorthy has been a critical contributor, collaborator, leader of numerous biopharmaceutical, healthcare ventures, and collaborations between India and US for the past two decades.

“India is front and center for innovations in Regenerative Medicine and the Advanced Therapies. As part of our efforts to breakdown silos, expand knowledge, and forge collaborations, the RMF is excited to share the expertise of Cell Bridge Strategies’ Dr. Preveen Ramamoorthy as he leads the discussion on the scientific and business drivers emerging from India, and how they play a key role in the advancement of our Industry,” said Bernard Siegel, RMF’s Executive Director.

RMF and Cell Bridge Strategies, are excited to present an entire series of talks, featuring the landscape of Regenerative Medicine and Cell Therapy in India at the World Stem Cell Summit for the first time. The goal of this India track is to catalyze collaborations between Indian industry, academia with their counterparts globally, and particularly between India and the

USA. The speakers represent the wide breadth of the fast growing, India Regenerative Medicine and Cell Therapy ecosystem, ranging from academia, government policy, industry, key opinion leaders to entrepreneurs. The content of the India track covers the state of the regulatory, funding, talent, commercialization, infrastructure, scientific, clinical, manufacturing and government policy. Companies featured in our India track are working on cutting edge areas of Cell Therapy and Regenerative Medicine, with products in early-stage clinical development, in the areas of mesenchymal stem cells (MSCs), Chimeric antigen receptor (CAR) T-cells, Natural Killer (NK) cells and pluripotent stem cells (PSCs).

Regional and International Showcase Highlights. The India Market

- **Regenerative Medicine and Cell Therapy – The India Landscape** - Dr. Preveen Ramamoorthy – Cell Bridge Strategies, Ph.D., Session Chair
