Cell Bridge Strategies Achieves Premier Consultant Firm Status at Virtual World Stem Cell Summit, June 6-11, 2022

Boerne, TX. May 11, 2022 — [Cell Bridge Strategies](#), an industry thought leader and business consulting firm for regenerative medicine today announced its partnership and significant role at this year's [World Stem Cell Summit](#), taking place virtually on June 6-11, organized by the Regenerative Medicine Foundation (RMF). The Summit is combined with the Regenerative Medicine Essentials Course, an event co-produced by the Wake Forest Institute for Regenerative Medicine and RMF.

The Virtual World Stem Cell Summit is designed to breakdown silos, expand knowledge, and forge collaborations, with the goal of improving health and delivering cures. The nonprofit Regenerative Medicine Foundation has built the strongest, most comprehensive, and trusted global network for Regenerative Medicine, uniting the world's leading researchers, medical centers, universities, labs, businesses, funders, policymakers, experts in law, regulation and ethics, medical philanthropies and patient organizations.

Cell Bridge Strategies was selected as the premier consultant to bring world-class thought leadership and share latest perspectives to advance future stem cell treatments.

"Cell Bridge Strategies brings together deep scientific knowledge in regenerative medicine with strong business acumen, that can help drive growth for companies in this rapidly growing industry," said Bernard Siegel, RMF's Executive Director. *"We are very excited to partner with their team of experts as our Premier Consulting Firm and Industry Knowledge Leader."*

Dr. Jane Andrews, Cell Bridge Strategies' founder and CEO, shared, *"We are very excited to play such a significant role at World Stem Cell Summit 2022, as global leaders convene to share developments, and discuss current challenges to help improve patient outcomes."* Andrews added, *"As a consulting firm that supports executives and investors in cell therapy science, business modeling and regulatory strategies, it's a great opportunity to give back to the [Regenerative Medicine](#) marketplace."*
